INSURANCE

If you're not on a current training course, you may only use diving equipment in the pool (your own or Club equipment) if you are a qualified diver, and have a **minimum of third party liability insurance**, for example through membership of the SAA (we are an SAA affiliated Club), or a policy with DAN, Divemaster or similar. This applies to guests as well as Members. Members are responsible for their own third-party liability insurance to cover damage to the pool (and other pool users).
